3. What pieces in the room do you love? (sentimental value, heirloom, etc.)
4. What pieces must stay in the room? (due to budget, due to function, etc.)
5. What is (are) the function(s) of the space? (i.e. office space, dining, storage)
6. What do you like about the current space?
7. What do you NOT like about the current space? (problem areas)
8. Along with this questionnaire, send me at least 3 images of rooms that you enjoy or that inspire you. You could also send me a link to a Pinterest board or Instagram account that you admire. This is extremely helpful to deduce the correct color palette and design style for you.

## DESIGN SERVICES AVAILABLE

*Once I have received the questionnaire and other preliminary pieces along with your options chosen below, I will send an invoice as well as a projected start date. All options require a 50% deposit. By selecting me as your designer, you are allowing me to put photos of your project on my blog and on my social media. All names and projects will remain anonymous.*

### **OPTION 1: E-DESIGN \$125**

Once deposit is received along with clear photos of each space with measurements, a comprehensive mood board of the space will be created and edited up to 3 times until approved. After being approved by you, the final mood board will be sent along with a full product source list with budget breakdown. You will, then, be able to purchase products at your leisure and execute the design on your own timeline and at your discretion.

### **OPTION 2: COMPREHENSIVE DESIGN & INSTALL (LOCAL ONLY) \$500**

Once deposit is received, we will meet on location so I can get clear photos of the space as well as measurements. This will also serve as our initial design consultation where we will discuss further any questions, concerns, or ideas. From there, a comprehensive mood board of the space will be created and presented to you in person. If needed, it will be edited up to 3 times until approved. After being approved by you, the final mood board will be sent along with a full product source list with budget breakdown. Once items have been purchased and any painting done (this is not included but I have recommendations if you'd like to source it out), I will come on location to fully install the space. Depending on the size of the space, this could take anywhere from 3 hours to 2 days, but averages approximately 12 hours. I prefer this process is done when you are not present. That way, a full reveal of the room can be presented to you.

### **A LA CARTE 1: PRODUCT PURCHASING \$50**

With either service option, you will receive a comprehensive product source list with budget breakdown. If you so wish to have me order the products to save you time, I would be more than willing. Please note that all products purchased online would get shipped directly to you. Any items purchased in-store (local only) will remain with me until all items have been purchased. Once all have been purchased, I will either deliver them to you or bring them with me on install day (Option 2).

### **A LA CARTE 2: THRIFTED FINDS \$25/hr**

With either service option, you will receive a comprehensive product source list with budget breakdown. If you would prefer to have vintage or secondhand items incorporated into your space, I will gladly search thrift and antique stores (local only) and/or Facebook Marketplace in your area (U.S. residents only). If you are local, I will purchase the items (instead of through the product source list) and if you are not local, I will send you the links to the items I recommend. Please note this is not an exact science and I do not guarantee that we will find the item we are looking for. The fee is for my time.
